

 November 11th, Friday, 16:30-18:30

JAPAN-SWEDEN STUDENTS' EVENING

**KTH MAIN CAMPUS IN STOCKHOLM, E1 HALL
(ADDRESS: OSQUARS BACKE 2)**

**All students from Japan and
all students in Sweden interested in Japan
are warmly welcome!**

program

Keynote Lecture

Prof. Dan Larhammar

the former President of the Royal Swedish Academy of Sciences(KVA), Uppsala University

KVA is the distinguished Swedish academy founded in 1739, and is also well-known as the awarding institute for the Nobel Prizes in Physics and Chemistry as well as the Economy Prize to the memory of Alfred Nobel. Prof. Larhammar will give a lecture featuring KVA, Nobel Prizes as well as his prominent research career.

SEMPAI Talk1

Prof. Atsuto Maki

School of Electrical Engineering and Computer Science (EECS),
KTH Royal Institute of Technology

Prof. Maki has been lecturing Machine Learning, one of the most popular courses at KTH, for ca. 10 years while being a PI for various projects. The talk will be based on his cross-border research experiences in Sweden, UK, and Japan, both in academia and industry.

SEMPAI Talk2

One of the Swedes who studied in Japan will share his/her experience in Japan. Stories about study, culture, daily life etc. can be inspiring to those who are interested in Japan.

Networking

Please enjoy networking with some drinks and Japanese snacks afterwards
